

PIXMA Pro9000 Mark II

Professional Photo Inkjet Printer

Canon
advanced simplicity®

Pure professional performance. Archival quality photos in black and white or colour.

The PIXMA Pro9000 Mark II has been designed with the DNA of Canon EOS cameras and is built for supreme durability, reliability and professional image quality. The Pro9000 Mark II uses dye-based inks for all 8 colours, creating an amazing colour range. Utilising a FINE print-head allowing precise ejection of microscopic ink droplets as small as 2pl for all colours. Combined with a high resolution of 4800 x 2400 dpi, FINE produces photographs which are sharp and grain free. The Pro9000 Mark II is the perfect printing solution for professionals and enthusiast photographers who demand archival quality photos up to A3+ in black and white or colour.

Key Features

Ambient Light Correction

- "Ambient Light Correction" reduces the color difference in vision caused by different light conditions between printing and viewing environment⁸

Archival Quality

- Chromalife ink for display permanence ratings in excess of 100 years for colour images and greater than 200 years for black & white photos with selected Canon photo and Fine Art paper⁷.

Adobe Photoshop Elements 6

- A full version of Adobe Photoshop Elements version 6 now comes supplied with the PIXMA Pro range. Now you have more tools at your fingertips to bring your images to life.

Easy-PhotoPrint Pro Software (version 2)

- Simple plug-in from Digital Photo Professional (DPP), Adobe Photoshop CS/CS2/CS3/CS4 and Adobe PhotoShop Elements 6
- Directly print RAW images. No need to convert your data to TIFF or JPEG
- Customise and save frequently used print settings offering the highest level of control through colour management and monochrome printing.

Power Source	AC 100-240V	
Power Consumption	Max: 16W, Standby: 1.2W, Off: 0.9W	
Acoustic Noise Level	42.5dB(A) in default setting	
Operating Environment	5-35°C, 10-90% Humidity	
Dimensions (W x D x H)	660 x 354 x 191 mm (min. dimensions, paper trays & other extensions closed)	
Weight	14.4kg (including print head and ink tanks)	

Fine Art Paper

Fine Art Paper "Photo Rag"™ FAPR1
Smooth, bright white, 100% cotton rag based paper with a soft, velvet texture.

Fine Art Paper Premium Matte FAPM1
A premium heavyweight paper with a smooth, non-glare matte surface.

Fine Art Paper Museum Etching FAME1
Thick, 350gsm fine art paper with a subtle surface texture.

*Ink yield calculation is based on printing Photo (11" x 14" image) (colour): When printing ISO/JIS-SCID N2 pattern at 11" x 14" size continuously on A3+ Photo Paper Pro (PR201), using Windows XP printer driver and Photoshop CS2.
Ink yield may vary depending on photos printed, applications software used, print mode and type of paper used. This should be used as a guide only and does not take into account ink that might be used for head cleaning or head refreshing to maintain printer performance.

- Ink droplets can be placed with a pitch of 1/4800 inch at minimum.
 - WIR Display Permanence Ratings are based on accelerated testing for framed prints, under glass with 5mm air gap. Testing is conducted at 24°C, 60% relative humidity and with a 35 lux light source.
 - PictBridge camera direct printing requires PictBridge compatible digital cameras in order to function. Check with your digital camera manufacturer or users guide to determine PictBridge compatibility.
 - Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Pro II. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc. and does not take into account data processing time on host computer.
 - A computer that complies with Hi-speed USB 2.0 standard is required.
 - When printing ISO/JIS-SCIND N2 pattern bordered on A3 size plain paper with the default settings.
 - Supported paper types for borderless printing: Photo Paper Pro Platinum, Photo Paper Pro, Photo Paper Plus Glossy, Photo Paper Plus Semi-gloss, Matte Photo Paper
 - Ambient light correction is compatible with Windows Vista only
- Subject to change without notice
