

# SMART Learning Suite

One simple pricing model. Millions of enriching experiences.

This suite gives you the world's best education software to connect students, teachers and devices. SMART Learning Suite lessons are hands-on, collaborative learning experiences on any device. Best of all, you get these 3 leading education software platforms for one simple price.

The world's leading education software

Create engaging activities in 5 minutes

Crank up collaboration in and out of the classroom

**Here's what you get:**

**SMART Notebook software**

The world's premiere education software, SMART Notebook® facilitates engaging and hands-on learning experiences while providing the flexibility to respond to the needs of learners on the fly.

**SMART Lesson Activity Builder**

The greatest gift we can give teachers is time. For students, it's more fun, engaging activities. LAB does both by letting teachers captivate students for hours with learning activities they create in 5 minutes.

**SMART amp software**

This cloud software uses Google Apps for Education to take student-led learning to a new level. Students and teachers – inside and outside of school – can collaborate at the same time across any laptop or tablet in its infinite workspace.

**Key Features:**

**Software for any hardware**

Student devices, interactive whiteboards, interactive displays, Chromebooks, BYOD plans...it's all the same to SMART Learning Suite. It's the hub of your connected classroom.

**The flexibility you need to succeed**

Front of the room instruction, student-led learning, project-based learning and flipped classroom initiatives are all enhanced by SMART Learning Suite. Any grade level, any subject.

**Easy to use. Easy to adopt.**

Educators can easily and quickly create dynamic, interactive, fun and engaging content. In less than five minutes, lessons that will wow students are ready. Plus, access to ongoing support is there every step of the way.

**Ready for the future**

As a leading education technology company, SMART works closely with educators and thought-leaders in the field to ensure each new release addresses the needs of educators, for today and the future.

**One simple pricing model. Millions of enriching experiences.**

Nothing should get in the way of creating incredible learning experiences, including budget planning. SMART Learning Suite offers one simple pricing model, so you have one cost to budget for.

All SMART interactive displays include a year-long subscription to SMART Learning Suite.
