

# Telephoto Lens

## EF 600mm f/4L IS II USM

### Professional Super-telephoto lens

The EF 600mm f/4L IS II USM is a newly-developed, large diameter, super-telephoto lens, that features completely redesigned optics to provide better image quality and significant weight reduction than its predecessor. It is also equipped with Canon's Image Stabilization function, making it the equivalent of 4 shutter-speed settings faster, while the active use of magnesium alloy in the body makes it lighter. These features, coupled with other improvements such as better dust- and waterproofing make this, an ultra high-performance lens that combines superb ease-of-use with excellent durability made for the digital age.

### Key Features

- High-performance, super-telephoto L lens with built-in Image Stabilization (IS)
- Uses two fluorite lens elements in the first group for correction to a minimum of chromatic aberration, ensuring high-quality images with higher levels of image resolution and contrast
- Lens placement and coatings are optimised to minimize the ghosting and flare that frequently occur when the lens is used with a digital camera. Use of an SWC coating provides reduced ghosting for a light source in the screen.
- Magnesium alloy is actively used to provide structural strength and ensure lens-retaining accuracy, while reducing the lens weight.

<b>Focal Length &amp; Max Aperture</b>	600mm 1:4.0
<b>Picture Size</b>	35mm Full size
<b>Lens Construction</b>	16 elements in 12 groups
<b>Minimum Aperture</b>	f/32 (for 1/2-stop increments also)
<b>Closest Focusing Distance</b>	4.5m
<b>Maximum Magnification</b>	0.15x
<b>Image Stabilizer effect</b>	4 stops
<b>Dimensions</b>	168 x 448 mm
<b>Weight</b>	3,920g
<b>Included accessories</b>	Lens hood (ET-160 WII), Lens Cap (E-185B), Lens Case (600B), Lens Dust Cap E, Lens Wide Strap B

### Accessories

- Extender EF1.4x III
- Gelatin filter holder 52 (WII)
- Polarizing filter PL-C52 (WII)
- Extender EF2x III
- Screw filter holder 52 (WII)

Canon's world-renowned EF lens range offers infinite choices and features for any project and any budget. With over 60 lenses ranging from fish-eye to super-telephoto, with both fixed-length and zoom lenses to fit any photographer's needs, EF lenses have proven their worth in every photographic context.
