### High-end Enthusiast / Professional telephoto zoom lens

The EF 70-300mm f/4-5.6L IS USM Lens, a high performance, L-series telephoto zoom lens, boasting an incredible feature set including an image stabilization effect equivalent to shooting at approx. 4 stops, full time manual focusing all built and designed around two UD elements and a floating mechanism attaining superior image quality across the entire focal length range.

### Key Features

- L-Series Image Stabilizer telephoto lens zooming to 300mm.
- Two UD elements effectively correcting chromatic aberrations attaining higher resolution and contrast.
- Floating mechanism results in high image quality from infinity to close range.
- Image Stabilizer gives the equivalent effect of a shutter speed faster by approx 4 stops.
- Highly durable and rigid construction to withstand demanding conditions for professionals and amateurs.
- High speed AF
- Manual focusing possible in AF mode
