

EF-S 55-250mm f4-5.6 IS STM

EF-S Lens

Canon

High power standard zoom lens for users of all levels

EF-S
Lenses

The newly developed EF-S 55-250mm f/4-5.6 IS STM is an ideal telephoto zoom lens for EOS cameras, combining Canon's leading Optical Image Stabilizer and Stepping Motor (STM) technologies to deliver minimal image blur and smooth, near-silent focus in movies.

Key Features

High Image Quality

- Ultra Low Dispersion lens elements for high image quality
- Lens disposition and coatings optimized to minimize ghosting and flare
- Excellent soft-toned backgrounds achieved with 7-blade circular aperture

Advanced AF performance

- Newly-developed zoom and focus mechanism with stepping motor and lead screws for:
 - Silent and speedy AF during still image photography
 - Silent, remarkably smooth movie servo AF during movie shooting when used with EOS 70D, EOS 700D, 650D, 100D and EOS M

High performance

- Image stabilizer delivers a level of sharpness equivalent to a shutter speed setting up to 3.5 stops faster
- Shorter minimum focusing distance of 0.85m / 2.79 ft
- Maximum magnification of 0.29x at the telephoto end

Accessories

- Lens Cap E-58II (bundled with lens)
- Lens Dust Cap E (bundled with lens)
- Lens Hood ET63 (sold separately)
- Lens Case LP1019 (sold separately)

Focal Length & Max Aperture	55-250mm 1:4-5.6
Picture Size	APS-C
Filter Diameter	58mm
Lens Construction	15 elements in 12 groups
Minimum Aperture	f/22-32
Closest Focusing Distance	0.85m/2.79 ft
Focus Drive	STM (Stepping Motor)
Dimensions	Approx 70 mm x 111.2 mm
Weight	Approx 375g
