

Power Zoom Adapter PZ-E1

SMOOTH POWERED ZOOMING FOR CINEMATIC MOVIES

The Power Zoom Adapter PZ-E1 is a compact and lightweight accessory designed for the EF-S 18-135mm f/3.5-5.6 IS USM to enable smooth, fingertip zoom control when shooting movies, ideal for capturing professional-looking documentary footage, with the option to control via Wi-Fi.

SMOOTH ZOOM WHEN SHOOTING MOVIES

Zooming during movie shooting has traditionally been a challenge with DSLR cameras due to manual zoom controls found on lenses. The Power Zoom Adapter PZ-E1 solves this challenge, allowing powered zoom control when attached to Canon's EF-S 18-135mm f/3.5-5.6 IS USM

VARIABLE SPEED CONTROLS

Zoom speed is controlled using the speed level switch and the zoom lever. Users can adjust zooming speed to suit their capture needs.

REMOTE CONTROL FUNCTION *

The power zoom control function is also added to the remote control applications of smartphones and computers. Just like the unit itself, users can adjust zooming speed.

* Only EOS 80D is currently compatible
