

10x20 IS Binoculars

Get closer to a wide range of subjects using these 10x magnification Canon binoculars equipped with a conveniently located Image Stabilisation button. These small, portable and lightweight binoculars are perfect for concerts, sports, animal watching and stage productions.

Cutting Edge Lens Performance

Canon binoculars feature cutting edge optical technology cultivated in the development of the EOS series DSLR camera lenses. All models are also equipped with Image Stabiliser to maximize the performance of the lenses.

Compact Design

Experience a clean and compact design. Clever contrasting textures, rounded corners and tapering contours make the binocular's already-small frame appear even smaller. A superb pair of binoculars inside and out – perfect size to bring when viewing sports or wildlife.
